* Standard programming practice has traditionally allocated 8 pre-determined races to Sunday "A" meetings and 7 races to midweek "B" meetings. In order to introduce a degree of flexibility and maximize opportunity for participants, the State-wide Programming Committee has decided to leave a number of race slots "free" throughout the programming period. These are indicated with a "1" in the final column of the attached grid. These races will be allocated to classes and distances during the period as actual horse numbers and demand become evident. Subject to limitations on the number of races which can be run on a particular day, due to SKY Channel requirements and track wear and tear considerations, as well as taking into account regular budgeted race divides, it may be the case that a "free" race is not run on the day designated in the grid, however, they will be run during the programming period. SMS notification and the Tasracing website will be used to convey information to trainers about additional races
